Library of Congress Catalog Card Number 67-12454

Printed in the United States of America

CONTENTS AND ARRANGEMENT

Scope

This *Dictionary Catalog* contains, in one alphabetic sequence, author, title, and subject entries for monographs, serials, and analytics as cataloged for the main collection of the National Agricultural Library and for its Bee Culture and Beltsville Branches. Descriptive information, including notes, has been reproduced as it appears in the card catalog. Library call numbers are also given. Tracings, however, have been omitted. In the card catalog, many tracings appear on the backs of cards; in some cases, changes in tracings have been made only on the main entry card. To have included incomplete or incorrect information in the published work would have been more misleading than helpful.

Information cards, such as those describing the history of a corporate body or geographic area, have been reproduced from the card catalog. Also included in the printed volumes are author and subject cross-references.

At the end of the *Dictionary Catalog*, there appears, in a separate alphabetical arrangement, a list of translations of articles in the Library collection. This file consists of main entry only under author or, if the article has no author, under its title. Translations of articles are not classified. They are identified by a consecutively assigned number shown in call number position.

Policies

The changes in policy and practice made throughout the years of its development are reflected in the *Dictionary Catalog*. The following basic tools were in use when this catalog was discontinued in December, 1965. They had been modified, interpreted, and supplemented in various ways to meet the changing needs of the Library:

A.L.A. Cataloging Rules for Author and Title Entries. Second Edition, 1949.

Rules for Descriptive Cataloging in the Library of Congress, 1949.

Scheme of Classification for the United States Department of Agriculture Library. Edition 5, 1940.

U. S. National Agricultural Library. Subject Heading List. Preliminary Edition, 1963.

A.L.A. Rules for Filing Catalog Cards, 1942.

Editing

The publisher provided an editorial staff to review the card catalog before publication. Working from guidelines provided by the Library, this staff concentrated on withdrawing obsolete cards from the catalog and checking its filing arrangement.

More than 1,500,000 cards were examined. With limited time to perform such a large task, complete accuracy cannot be assured. Only the most glaring instances of error or illegibility warranted correcting or retyping cards. No attempt could be made to recatalog old entries to bring them in line with current practices.

Filing Arrangement

Catalog Entries

Within any given part of the catalog, the page display of entries will make their arrangement obvious. However, a statement of some of the Library's basic filing practices will facilitate use of the catalog as a whole.

1. General order of entries is:

Author

Periodical title

Periodical title as author

Subject

Title

Single letters, whether abbreviations or initials, file at the beginning of that part of the alphabet.

History cards precede entries of the organization described. "See also" references follow the related entries.

Entries for editions of works are filed with the earliest first.

2. Government entries for departments, bureaus, offices, etc., in the more familiar languages are generally arranged under the jurisdiction by the key word following the preposition. For example:

U. S. Bureau of *Agricultural Economics*.

U. S. Dept. of *Agriculture*.

U. S. Bureau of the *Census*.

U. S. Office of *Foreign Agricultural Relations*.

Those in the less familiar languages are arranged word by word.

Contents and Arrangement

3. Subdivisions of corporate bodies are also generally filed on this key-word principle. There are known inconsistencies in the catalog, though. Notable examples are entries for bodies whose names begin with the following terms and include a prepositional phrase: Service, College, Commission, Committee, Conference, Institute, and School.
4. Subject entries are subarranged by author. Generally, the filing order is as follows:
 - Subject without subdivision
 - Subject with geographic subdivision
 - Subject with subject subdivision and inverted subject headings interfiled, e.g.,
 - Milk. Acidity.
 - Milk. Care and handling.
 - Milk, Certified.

Milk, Citric acid in.

Milk. Composition.

Subject followed by qualifying term in parentheses.

Translations of Articles

The author's name is listed in the form in which it appears on the translation. Entries are interfiled whether or not forenames are spelled out and whether or not a joint author appears in the heading.

Inquiries

Cataloging and classification questions about the entries in the *Dictionary Catalog* should be addressed to the Chief, Division of Catalog and Records, National Agricultural Library, U. S. Department of Agriculture, Washington, D. C. 20250.

AVAILABILITY OF REFERENCES CITED

Loans. Most of the material in the National Agricultural Library collection may be borrowed by employees of the Department of Agriculture and by other libraries. In requesting loans, please include the library call number shown at the beginning of the citation. Loan of periodicals is restricted to the Washington, D.C., area. Foreign statistical publications and rare books are loaned only by special arrangement. Requests should be addressed to: Division of Lending, National Agricultural Library, U.S. Department of Agriculture, Washington, D.C. 20250, except for publications with call numbers preceded by "B" or "Bee Cul." Request those with "B" from Beltsville Branch, National Agricultural Library, U.S. Department of Agriculture, Plant Industry Station, Beltsville, Maryland 20705; those with "Bee Cul." should be requested from Bee Culture Branch, National Agricultural Library, U.S. Department of Agriculture, Building A, Agricultural Research Center, Beltsville, Maryland 20705.

Free Distribution. Most of the printed publications of the Department of Agriculture and publications issued by the State Experiment Stations and the State Agricultural Extension Services may be obtained free of charge by applying directly to the issuing agency. The National Agricultural Library does not distribute them.

Reproduction. Microfilms or photoprints may be obtained from the Photoduplication Section, National Agricultural Library, U.S. Department of Agriculture, Washington, D.C. 20250. Copying charges are:

MICROFILMS: \$1.00 for each 30 pages or fraction copied from a single article or book.

PHOTOPRINTS: \$1.00 for each 4 pages or fraction copied from a single article or book.

RUSH SERVICE will be furnished upon payment of \$1.00 additional for each order.

Payment must accompany the order. Cash, Library coupons, check, or money order drawn to the National Agricultural Library, USDA, are acceptable. Payment for orders originating outside the United States should be made by international money order or draft on an American bank, or by UNESCO book coupons. Superintendent of Documents coupons and requests to furnish photocopy to be paid from Superintendent of Documents deposit funds cannot be honored. Credit may be extended only to government agencies and institutions. Billing address should be indicated.

Library Coupons. Library coupons, valued at \$1.00 each, may be purchased in any quantity from the Photoduplication Section, National Agricultural Library, U.S. Department of Agriculture, Washington, D.C. 20250.

Marseille. Musée colonial.

The museum was founded in 1893 by Édouard Heckel as Musée colonial et institut botanico-géologique. Associated with the Musée colonial, were the Jardin botanique colonial, and the Bibliothèque, the three forming what was known as the Institut colonial. The museum and institute were officially designated "Institut et Musée colonial de Marseille". In 1898 and 1900, through the efforts of Heckel, courses in colonial education were established by the Chambre de commerce de Marseille. A little later, the municipality of Marseille established similar courses at the École de médecine. In 1906, following the Exposition coloniale de Marseille, there was a complete reorganization of the institute and museum by the Chambre de commerce de Marseille, and the various activities which up to that time had been carried on in different places, were centralized. The year 1906 is therefore considered the date of founding of the Institut colonial.

(Continued on next card)

Marseille. Musée colonial. (Card 2)

The Musée colonial has had an uninterrupted existence since 1893, and has been responsible for the publication of the Annales even during the period when the title-page reads "Annales de l'Institut colonial de Marseille". (cf. announcements on covers of various issues) All publications of the so-called "Institut colonial" of the period prior to 1906 are entered under the heading: Marseille Musée colonial.

Following the reorganization in 1906, publications which bear the name Institut colonial are entered under heading:

Marseille. Institut colonial.

Those which bear the name Musée colonial are entered under the heading:

Marseille. Musée colonial.

"As originally planned, this work was to have appeared in two vol-
umes, the first on the general principles of physiology as applied espe-
cially to farm animals, and the second on animal nutrition. Of these
two parts, the first only, by one of the present authors (Marshall), was
issued in 1920 ... The preparation of the second volume ... was under-
taken by the late professor T. B. Wood ... It was decided that the entire section on nutri-
tion should be written anew and ... incorporated along with the general
principles in one volume."—Pref.

"This book is based on a series of broadcast talks given in the spring
of 1937 under the general title 'One generation to another'. The talks
were in dialogue form, with Mr. T. H. Marshall as interlocutor. They
have been considerably revised for publication, the dialogue being elimi-
nated."—Pref.

On Apr. 6, 1860 the first cattle commission was
established by the state for the purpose of
eradicating contagious pleuro-pneumonia among
cattle. In Feb. 1862, the Commission on con-
tagious diseases of cattle was created. In 1894,
the name was changed to Board of cattle commis-
sioners, and in Apr. 16, 1902, the Board became
the Cattle bureau, functioning under the control
of the State board of agriculture.
